General notes:

Eliminate cutting edges

Perform sheet metal cutting in nitrogen

Note generali:

Eliminare bordi taglienti

Eseguire taglio lamiera in azoto

Surface preparation:

The component to be painted must be superficially cleaned to remove any traces of grease, oxidation and anything that may prevent a good adhesion of the paint film.

Preparazione delle superfici:

Il componente da verniciare deve essere sottoposto ad una pulizia superficiale per eliminare eventuali tracce di grasso, ossidazione e tutto quanto possa impedire una buona adesione del film di vernice.

Type of painting:

Cataphoresis with a thickness of 20 ÷ 35 micron

Tipo di verniciatura:

Cataforesi con spessore di 20 ÷ 35 micron.

Salt spray resistance:

Cross engraving and 300 h exposure according to UNI ISO 9227

Resistenza in nebbia salina:

Incisione a croce e 300 h di esposizione secondo UNI ISO 9227

Color:

Black RAL 9005

Colore:

Nero RAL 9005
