

Technical drawing of a road cross-section. The drawing shows a lane with a width of 17.5m. On the right side of the lane, there is a curb with a width of 100mm and a gutter with a width of 100mm. The drawing is a black and white line drawing with dimensions indicated by arrows and text.

Technical drawing of a circular mechanical part, likely a flange or end view of a pipe. The drawing shows concentric circles representing different diameters. Key dimensions include:

- A central circular feature with a diameter of  $20h\ 90^\circ (\pm 30^\circ)$ .
- A dimension of  $9^\circ$  indicating an angle or offset.
- A dimension of  $18^\circ$  indicating an angle or offset.
- A dashed line indicating a circular feature with a diameter of  $20h\ 90^\circ (\pm 30^\circ)$ .

Technical drawing of a mechanical part, likely a pump housing or valve body, showing a cross-section with various dimensions and tolerances. The part is symmetrical about a horizontal centerline. Key features include a central bore with a diameter of 160 mm, a top flange with a diameter of 254 mm, and a bottom flange with a diameter of 226 mm. The drawing includes numerous dimension lines, surface texture symbols (Rz 6.3), and material specifications (DIN 509 F 1x0.2, DIN 509 F 2.5x0.4, DIN 509 E 2.5x0.4). A green circle highlights a specific feature on the bottom flange.
