

TPV AUTOMOTIVE d.o.o.
Purchasing and logistics

Novo mesto, 03. 03. 2022

SUBJECT: Ukraine risk alert

Dear Supply Chain Partners,

In view of the current developments around Ukraine we kindly request that you identify any supply chains to TPV Automotive that includes suppliers and/or sub-tier suppliers located in Russia, Belarus or Ukraine.

You are also encouraged to proactively assess potential issues, and potential mitigations thereof, that could compromise the supply chain and affect the ability to deliver to TPV Automotive plants, such as but not limited to:

- Supplier's or sub-tier's location in potential conflict area affecting its operations, i.e. Ukraine, areas in Russia & Belarus close to the Ukraine border.
- Sanctions or embargos (including counter sanctions or embargos) that would prevent import, export, financial transfers, etc. from, via or to any of the countries involved.
- Availability to raw material, sub-components, energy, etc.

This request is to be able to quantify and qualify the potential risks and to prioritize mitigations as efficiently as possible in the event it would be needed.

Please come back to us as soon as possible with some first information.

Mojca BOŽIČ
Purchasing and logistics Director
