

N.º PEZZI

The image contains two technical drawings of a mechanical component. The top drawing is a perspective view of a U-shaped bracket. It features a long, flat base with rounded ends. Two vertical flanges rise from the base, each with a horizontal top surface. The right flange has a small rectangular tab extending from its side. Two circular holes are located on the top surfaces of the flanges. The bottom drawing is a top-down view of the same part, showing the rectangular footprint of the base and the positions of the flanges and holes.
